DETAILED ACTION

1. Acknowledgment is made of Amendment filed October 19, 2006.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. James Pingor (Reg. 51,382) on January 8, 2007.

IN THE CLAIMS:

Cancel claims 18-21 and 23-26.

Allowable Subject Matter

3. Claims 1-14 and 16 are allowed.
4. The following is an examiner's statement of reasons for allowance:

Koenck et al. (US 5,410,141) teaches a housing for a mobile terminal comprising a top portion configured to accept an accessory (e.g., battery pack) for a mobile terminal with a bar code reader, through a rail frame affixed to an accessory compartment of the top portion ("Battery compartment hatch 27 attaches to the bottom housing part 12 of terminal 10 through the interlocking and meshing of railings on both the battery compartment hatch 27 and bottom housing part 12." col. 8, lines 19-23, the rail frame comprising a mounting component that engages with the accessory and guides the accessory into the compartment (e.g., "In place of the battery arrangement 28, the

batteries can be mounted in an enclosed drawer part with square and round edges, which slides endwise into a receiving compartment..." col. 8, lines 50-53), the rail frame further comprising a locking component (88 in fig. 2) that engages the accessory within the top portion (col. 8, lines 19-63); and a bottom portion with a handle (314) configured to be held in the palm of a hand (col. 18, lines 55-59; col. 5, line 66 through col. 8, line 63).

Chang et al. (US 2005/0011951; hereinafter "Chang") teaches an optical scanner having a guiding rail to constrain the carrier to move along the guiding rail, wherein the guiding rail is fabricated using metal.

However, Koenck and/or Chang, taken alone or in combination thereof, among with other limitations, fails to specifically teach the top portion adapted to accept a key pad via a transitional frame, the key pad has a width larger than a width of the top portion of the housing as set forth in independent claim(s).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
